ABOUT ME

I am a 4th-year student at FPT University HCM with hands-on experience in web development. I have worked on both group and personal projects, utilizing React.js for front-end and Node.js, .NET for back-end development. Additionally, I have experience in designing databases, write Unit Test and setting up CI/CD pipelines using Azure and LINUX VPS. Currently, I am a Intern Back-End developer at FPT Software.
